

PROJECT REPORT : COMPUTER NETWORKS

FATIMA JINNAH WOMENS UNIVERSITY

➤ STEPS TO DOWNLOAD VMWARE WORKSTATION PRO TRIAL:

1. **Open a Web Browser:** Launch any web browser, such as Google Chrome, Mozilla Firefox, or Microsoft Edge.

2. **Search for VMware Workstation Pro Trial:** In the search bar, type "VMware Workstation Pro trial download" and press Enter.
3. **Select the Official VMware Website:** Click on the link to the official VMware website (e.g., "Download VMware Workstation Pro" from www.vmware.com).
4. **Navigate to the Download Page:** Once on the website, locate the download option for the VMware Workstation Pro trial version.
5. **Sign In or Create an Account:** If prompted, sign in with an existing VMware account or create a new account to proceed.
6. **Choose the Correct Version:** Select the version compatible with your operating system (e.g., Windows or Linux).
7. **Start the Download:** Click on the "Download Now" button to start downloading the installation file.

FATIMA JINNAH WOMENS UNIVERSITY

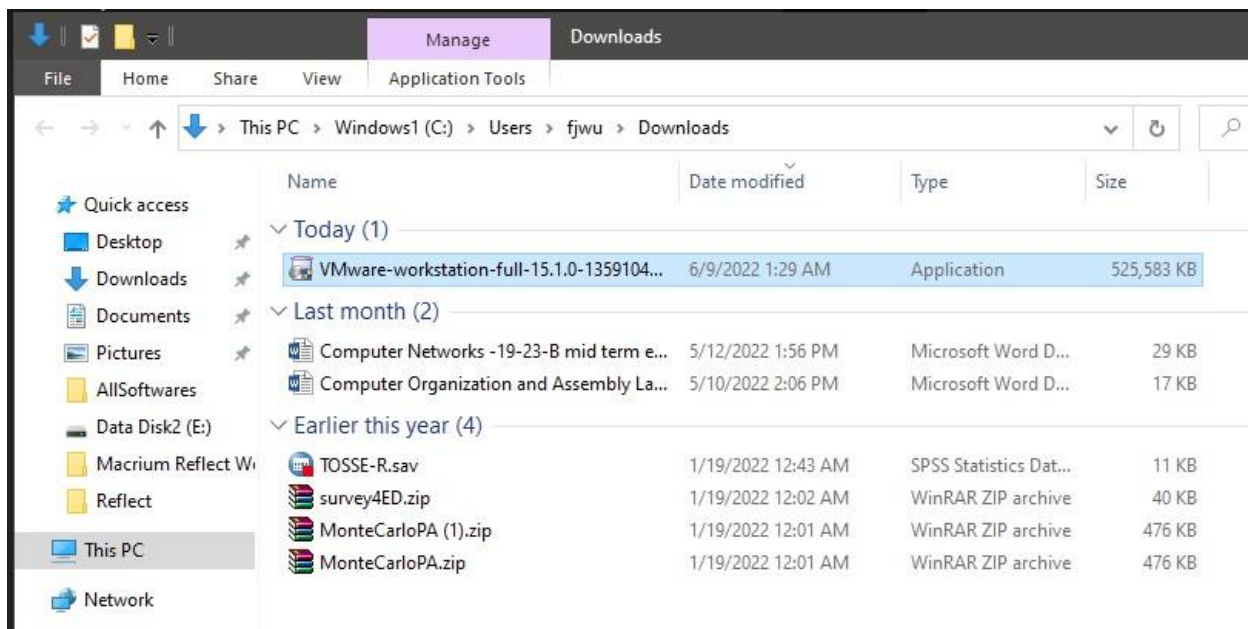

The image shows the VMware Workstation Pro 15 download page. On the left, there is a green banner with the VMware logo and '15 VMWARE WORKSTATION PRO'. To the right of the banner, the following information is listed:

- License: Free Trial
- OS: Windows
- File Size: 513MB
- Language: English
- Developer: VMware Inc.

On the right side of the page, there is a blue 'Download' button with a download icon and the text 'Download VMware-workstation-full-15.1.0-1...'.

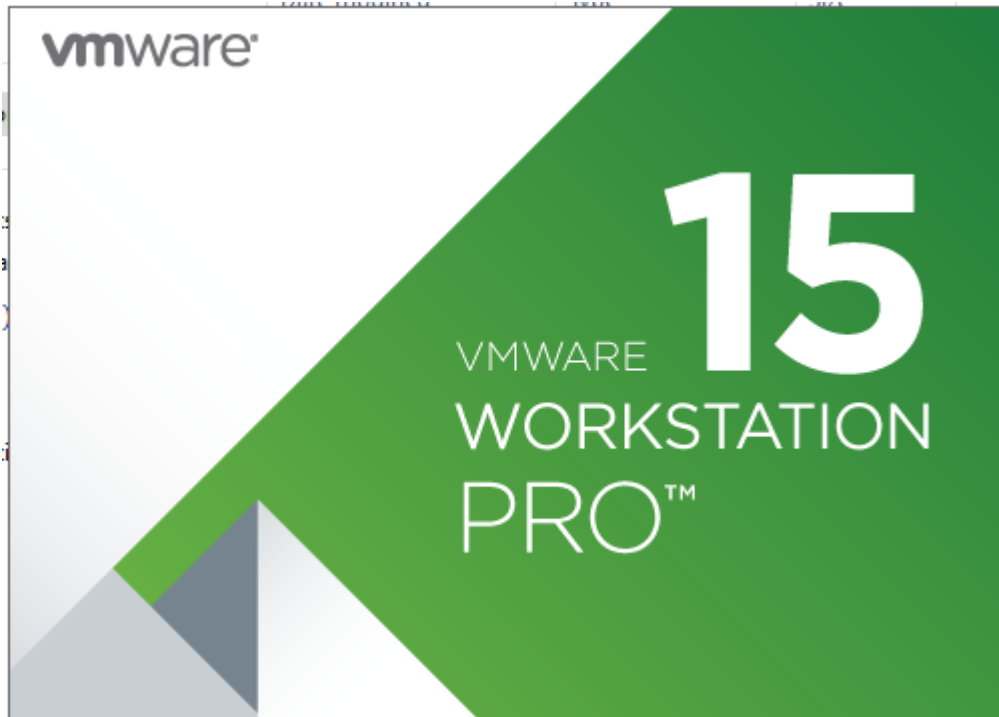

8. **Save the Installer:** Choose a location on your computer to save the installer file and wait for the download to complete.

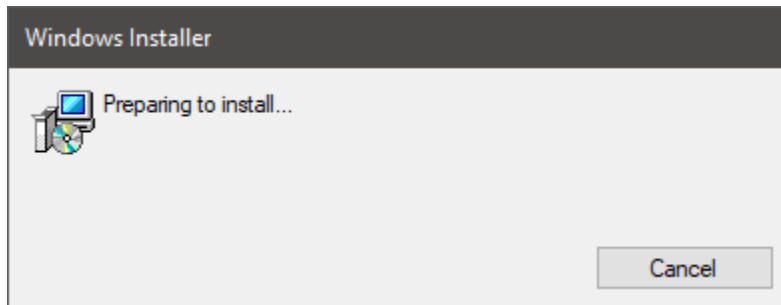

➤ STEPS TO INSTALL VMWARE WORKSTATION PRO:

FATIMA JINNAH WOMENS UNIVERSITY

1. **Locate the Installer File:** After downloading the VMware Workstation Pro installer, navigate to the folder where the file is saved.

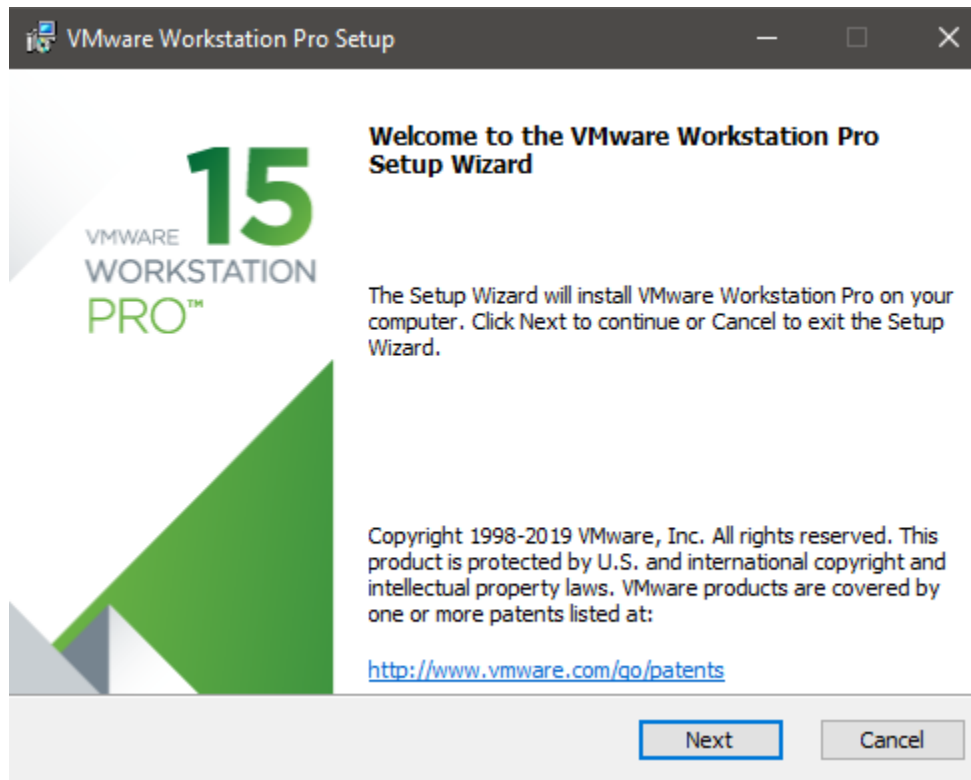

2. **Run the Installer:** Double-click the downloaded installer file to start the installation process.

3. **Windows Installer Preparation:** A dialog box will appear with the message "Preparing to install...". Wait for the setup to initialize.
4. **Follow the Installation Wizard:**
 - Once the installer loads, follow the on-screen instructions.
 - Accept the End User License Agreement (EULA) when prompted.

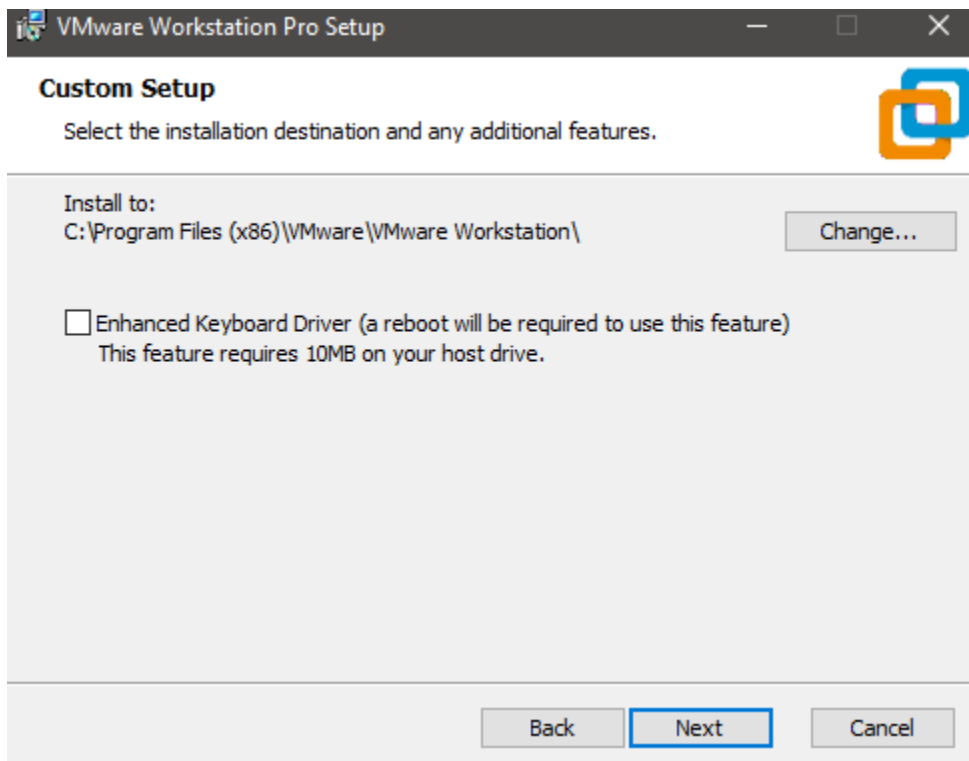

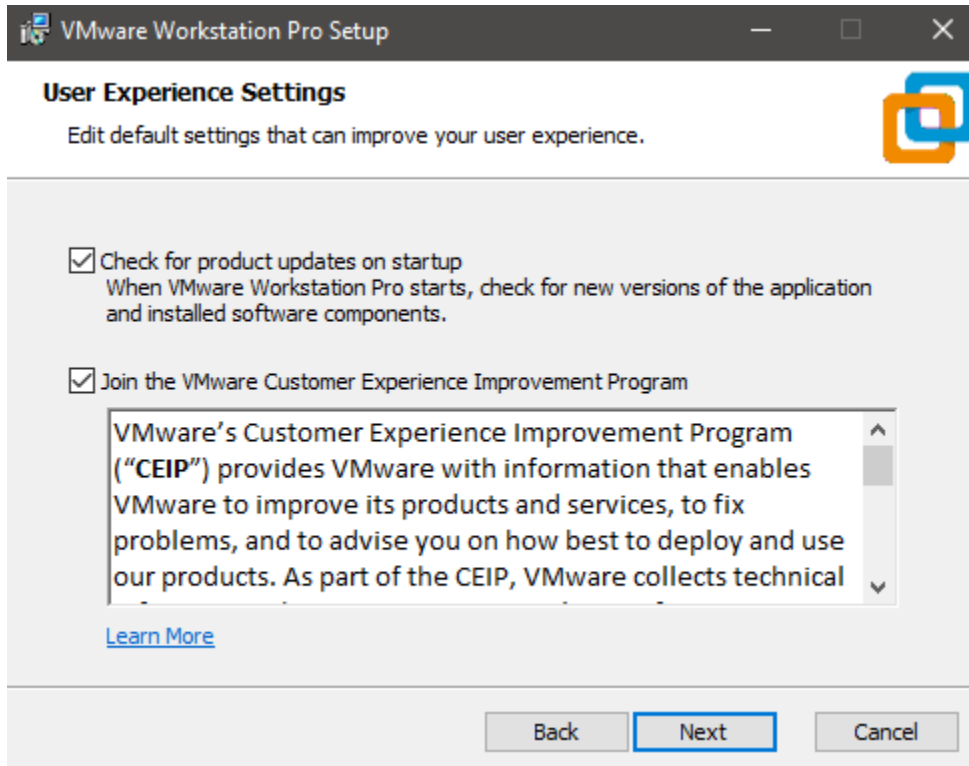

FATIMA JINNAH WOMENS UNIVERSITY

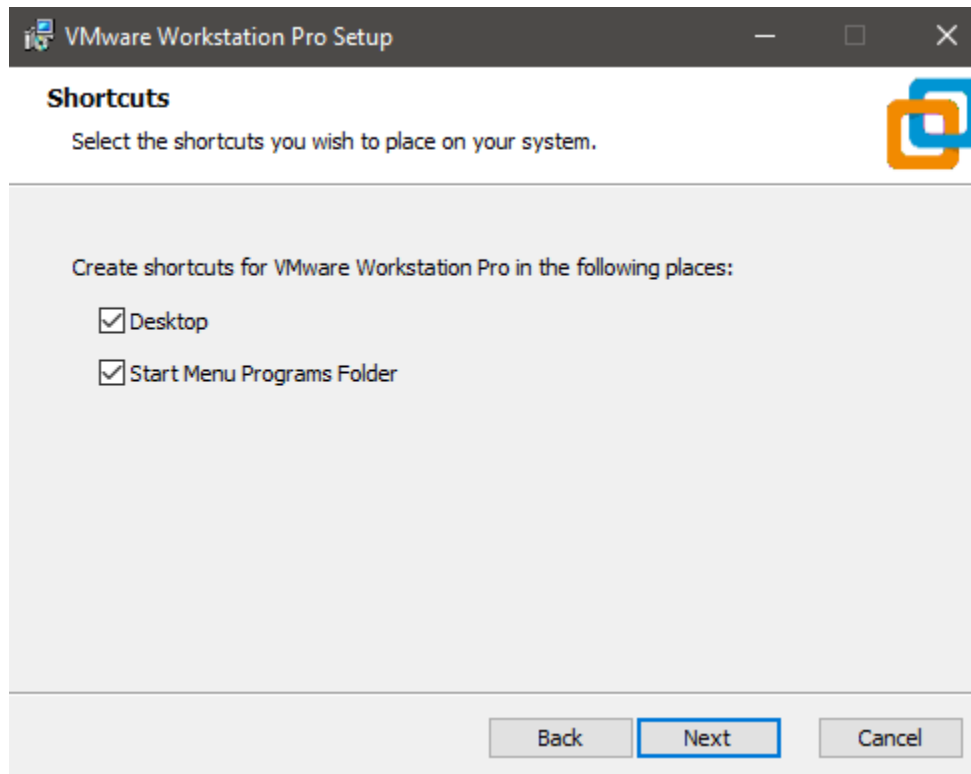

5. Select Installation Options:

- Choose the installation path or use the default path recommended by the installer.
- Select optional features or shortcuts as needed.

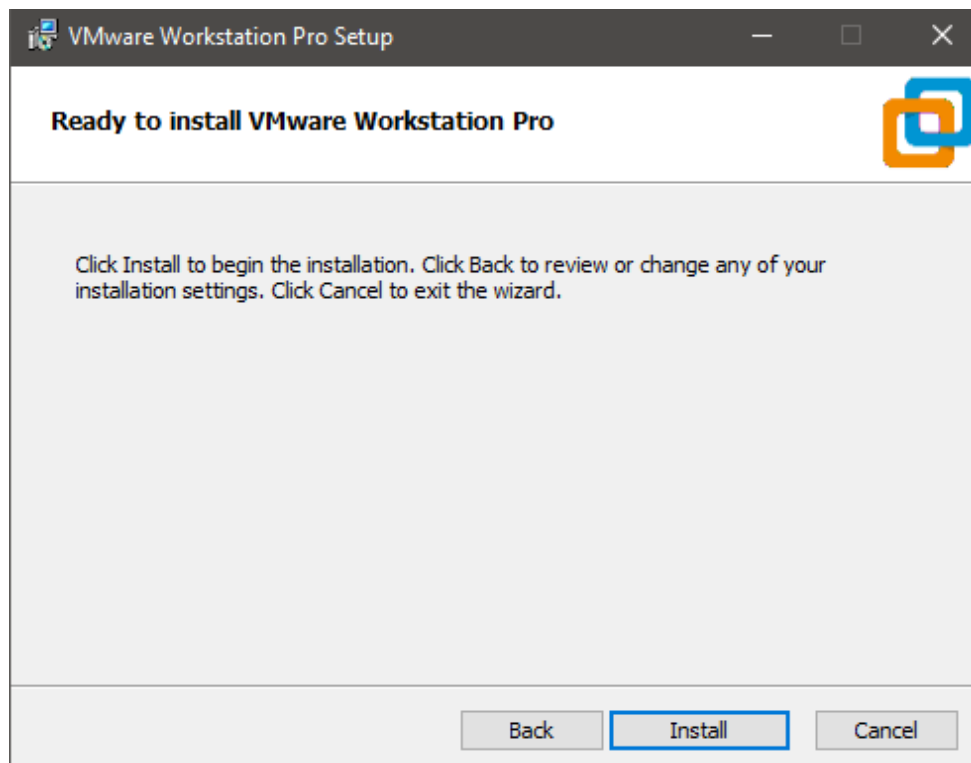

FATIMA JINNAH WOMENS UNIVERSITY

FATIMA JINNAH WOMENS UNIVERSITY

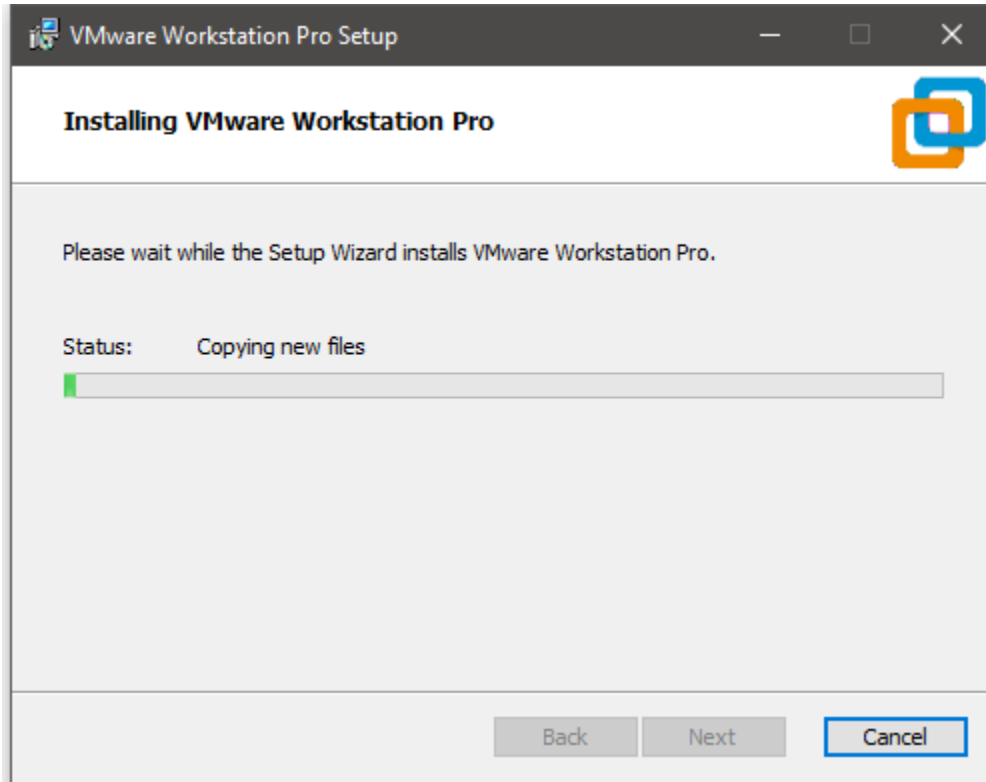

6. **Start Installation:** Click on the **Install** button to begin the actual installation process.

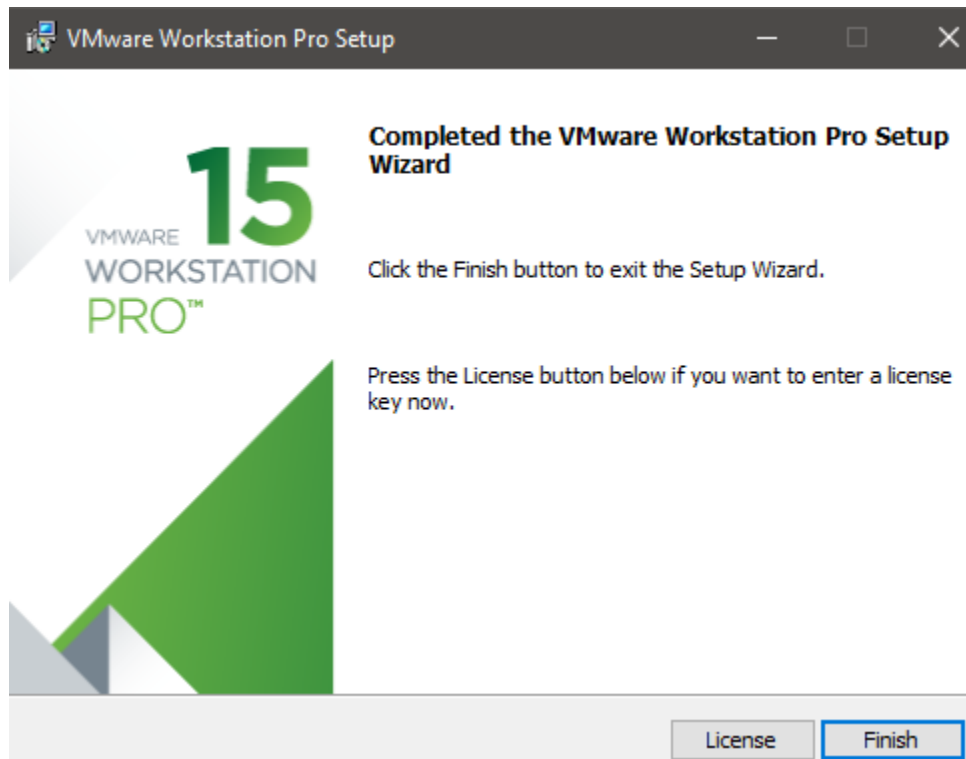

FATIMA JINNAH WOMENS UNIVERSITY

7. **Wait for Completion:** The installer will copy files and configure settings. This might take a few minutes.

8. **Finish Installation:** Once completed, click **Finish** to close the installer. VMware Workstation Pro is now installed on your system.

FATIMA JINNAH WOMENS UNIVERSITY

9. **Launch the Application:** Open VMware Workstation Pro from the desktop shortcut or the Start menu to start using it.

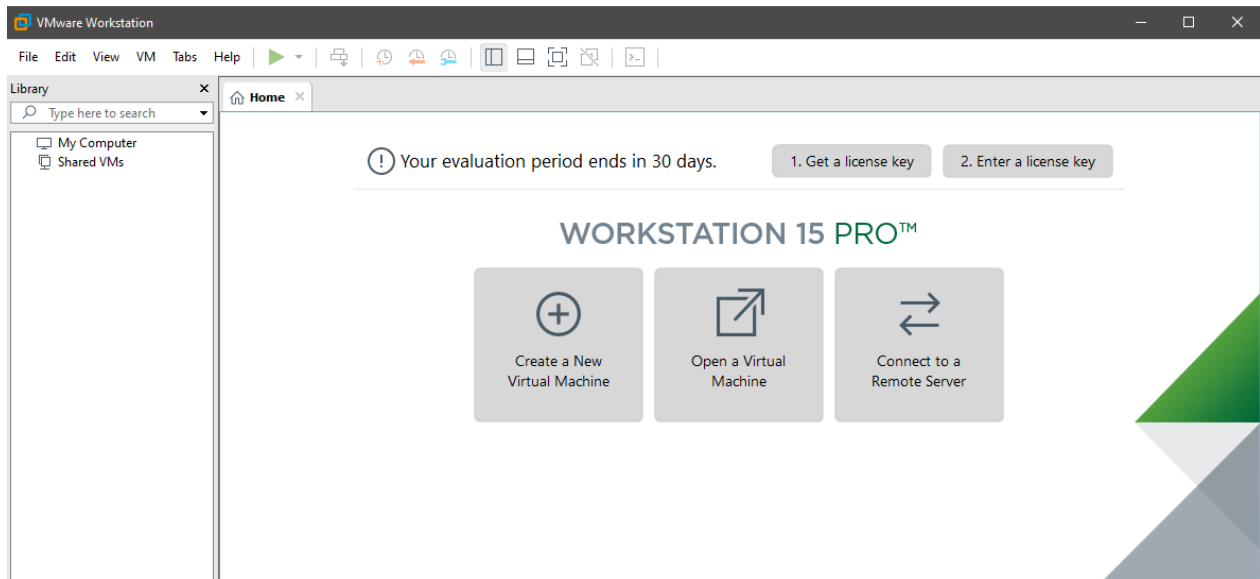

FATIMA JINNAH WOMENS UNIVERSITY

➤ STEPS FOR CREATING A VIRTUAL MACHINE IN VMWARE WORKSTATION PRO

1. Open VMware Workstation Pro:

- Launch VMware Workstation Pro. The dashboard similar to your screenshot will appear.

2. Select "Create a New Virtual Machine":

- Click on the "Create a New Virtual Machine" option.

FATIMA JINNAH WOMENS UNIVERSITY

FATIMA JINNAH WOMENS UNIVERSITY

The screenshot shows a window titled "New Virtual Machine Wizard" with a close button (X) in the top right corner. The main heading is "Select a Guest Operating System" with the subtitle "Which operating system will be installed on this virtual machine?". Below this, there are two sections: "Guest operating system" and "Version". In the "Guest operating system" section, there are four radio buttons: "Microsoft Windows" (which is selected), "Linux", "VMware ESX", and "Other". In the "Version" section, there is a dropdown menu currently showing "Windows 10 x64". At the bottom of the window, there are four buttons: "Help", "< Back", "Next >" (which is highlighted with a blue border), and "Cancel".

3. Choose Installation Method:

- Select **Typical (recommended)** and click **Next**.
- Insert your Windows Server ISO file in the **Installer disc image file (ISO)** field.

FATIMA JINNAH WOMENS UNIVERSITY

New Virtual Machine Wizard

Name the Virtual Machine
What name would you like to use for this virtual machine?

Virtual machine name:

Location:

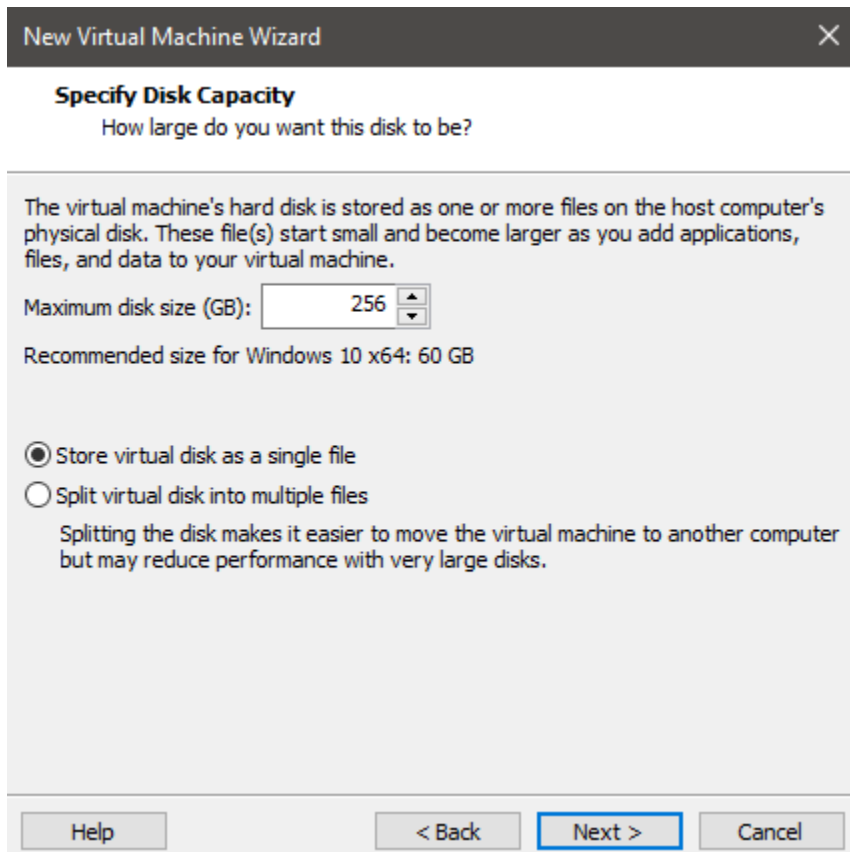

The default location can be changed at Edit > Preferences.

< Back Next > Cancel

4. Configure Virtual Machine Settings:

- Provide a name for the virtual machine.
- Specify the storage location for the VM files.
- Allocate sufficient disk space (e.g., 60 GB or more) for the virtual machine.

FATIMA JINNAH WOMENS UNIVERSITY

The screenshot shows a window titled "New Virtual Machine Wizard" with a close button (X) in the top right corner. The main heading is "Specify Disk Capacity" with the subtext "How large do you want this disk to be?". Below this, a paragraph explains: "The virtual machine's hard disk is stored as one or more files on the host computer's physical disk. These file(s) start small and become larger as you add applications, files, and data to your virtual machine." A text box labeled "Maximum disk size (GB):" contains the value "256" with up and down arrow buttons. Below the text box, it says "Recommended size for Windows 10 x64: 60 GB". There are two radio button options: "Store virtual disk as a single file" (which is selected) and "Split virtual disk into multiple files". A note below the second option states: "Splitting the disk makes it easier to move the virtual machine to another computer but may reduce performance with very large disks." At the bottom, there are four buttons: "Help", "< Back", "Next >" (which is highlighted with a blue border), and "Cancel".

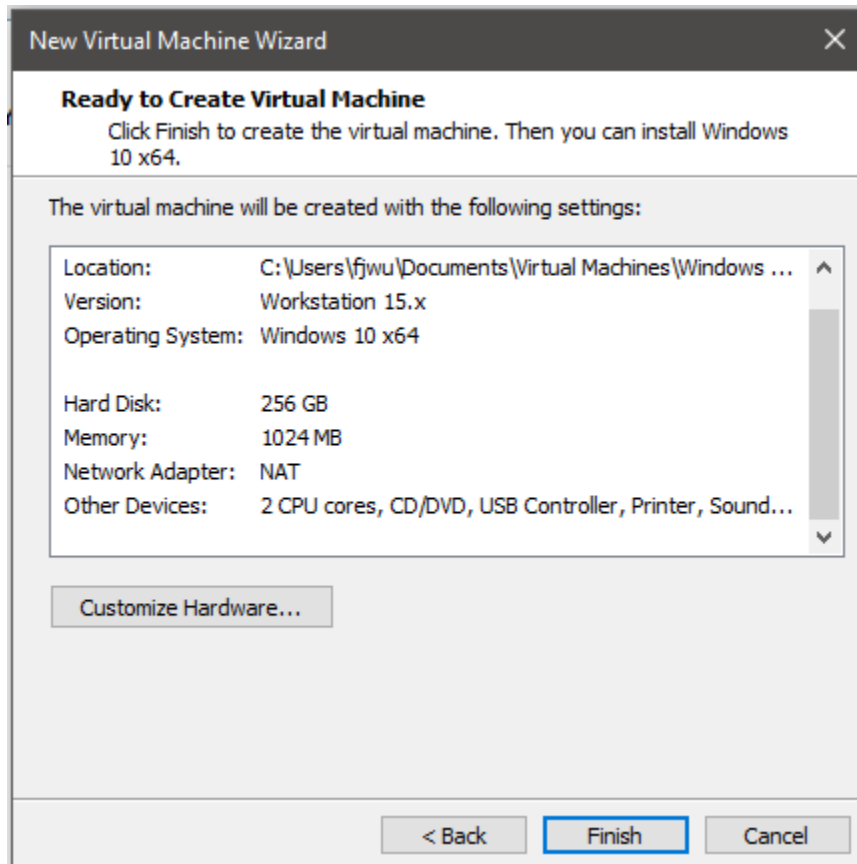

5. Customize Hardware (Optional):

- Click on **Customize Hardware** to adjust settings such as RAM, processors, or network adapters as per the requirements of Active Directory.

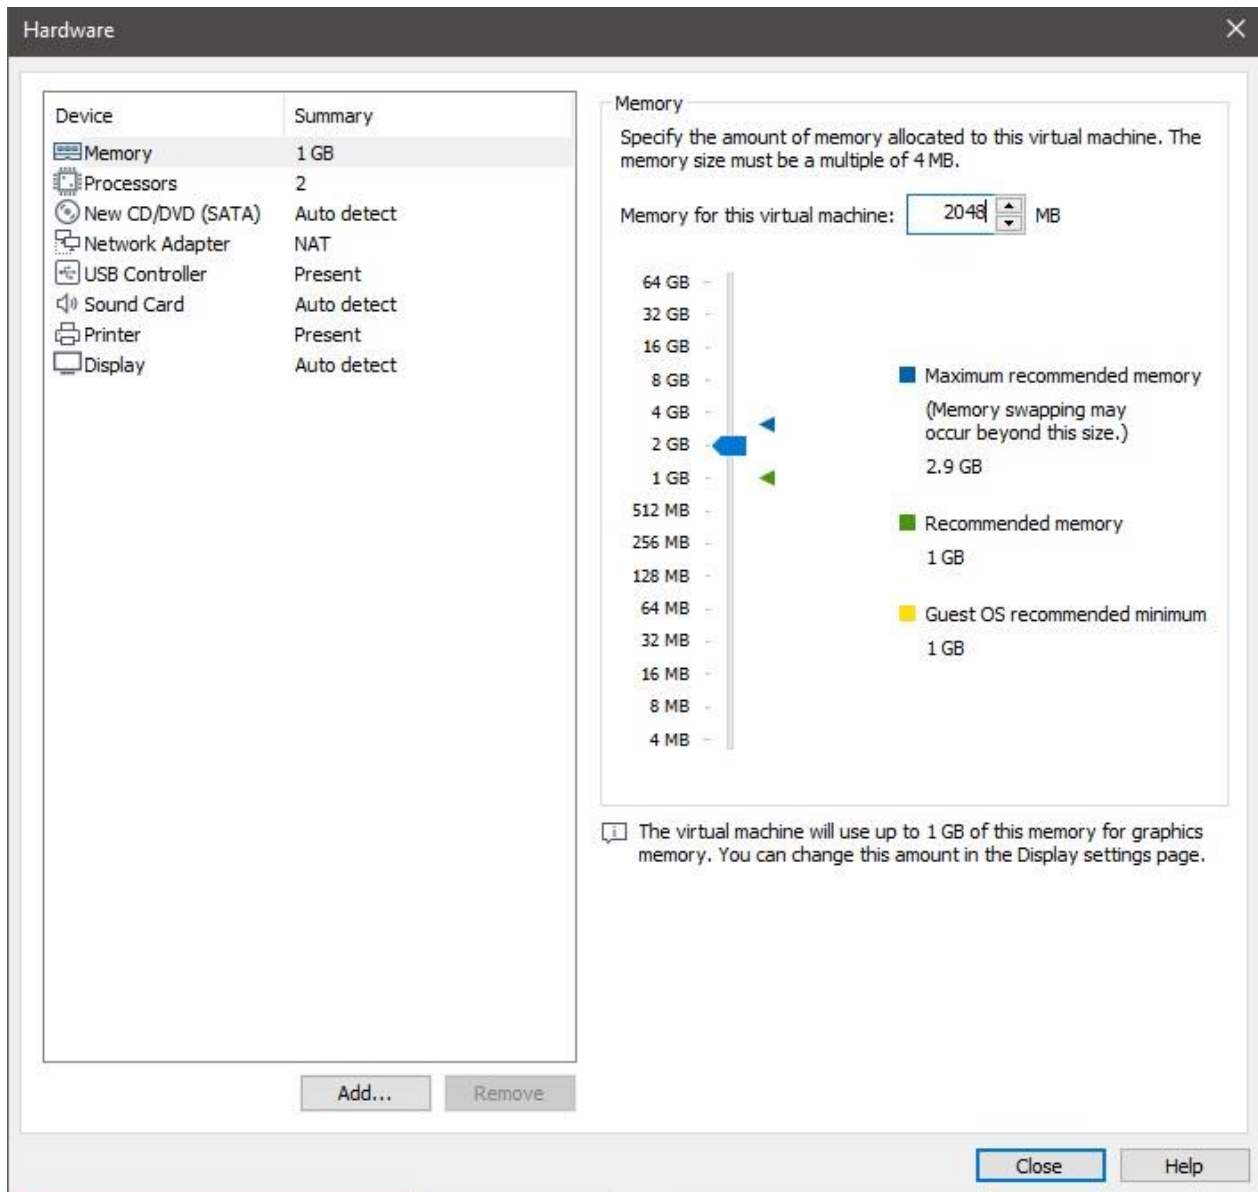

6. Finish Setup:

- Click **Finish** to create the virtual machine.
- Power on the virtual machine to start the Windows Server installation.

FATIMA JINNAH WOMENS UNIVERSITY

FATIMA JINNAH WOMENS UNIVERSITY

➤ WINDOWS ISO FILE KE DOWNLOAD STEPS:

1. Microsoft Official Website:

- Visit [Microsoft Evaluation Center](#) for Windows Server trial versions.
- Choose the required version (e.g., Windows Server 2019 or 2022).

➤ STEPS TO CUSTOMIZE HARDWARE IN VMWARE WORKSTATION PRO

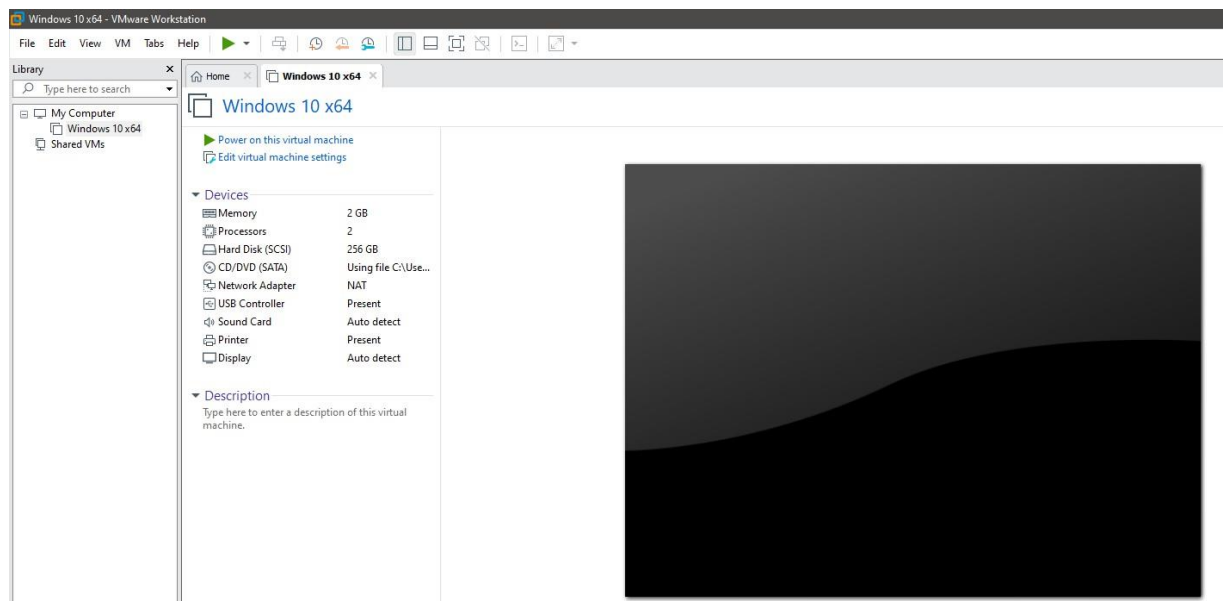

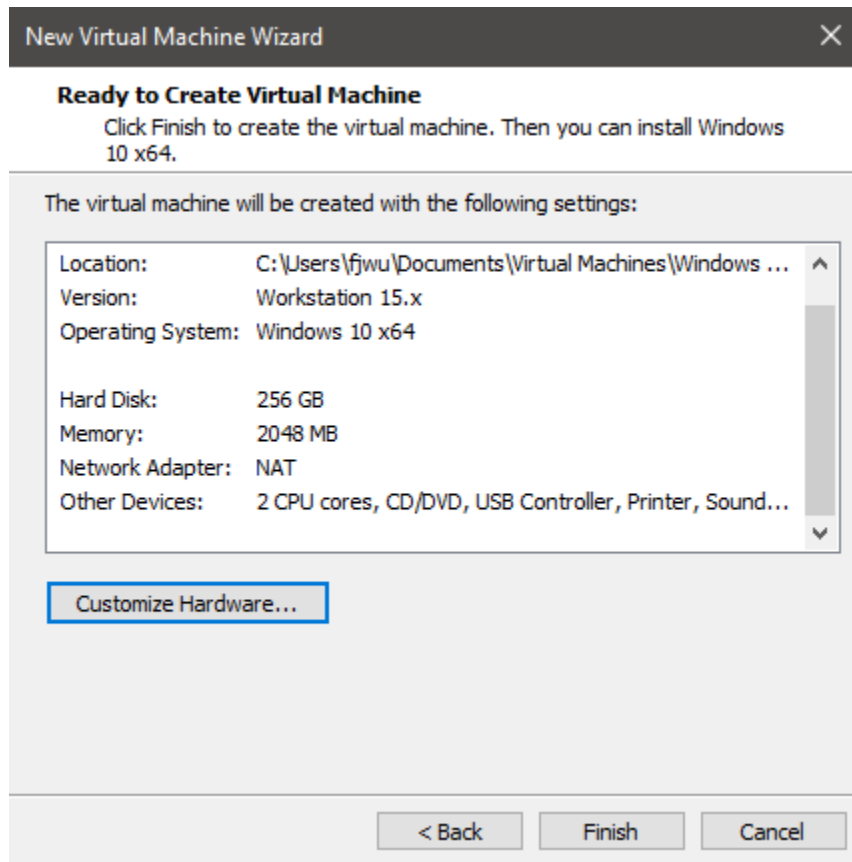

FATIMA JINNAH WOMENS UNIVERSITY

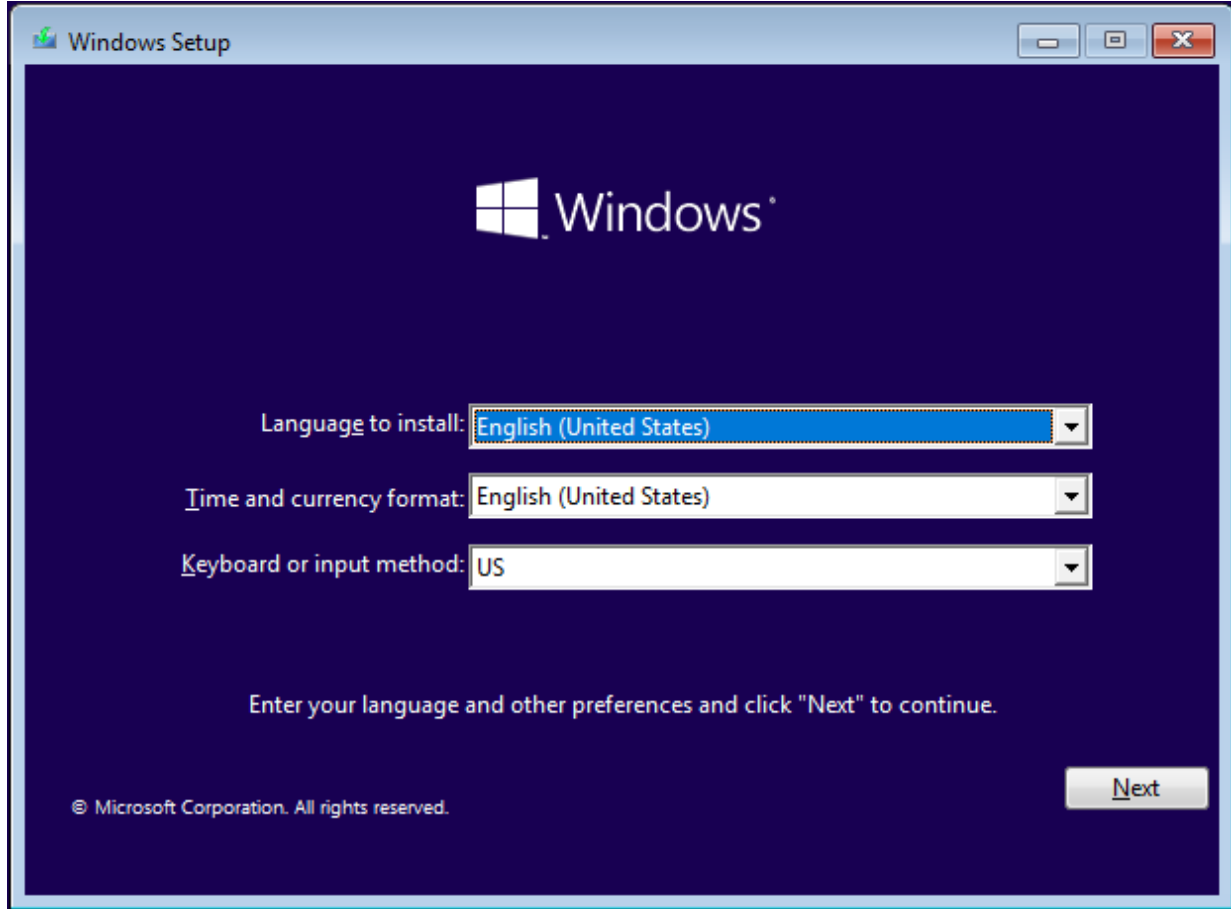

Step 1: Reach the Customize Hardware Screen

1. After completing the "Allocate Disk Space" step during virtual machine setup, you'll see a screen titled **Ready to Create Virtual Machine**.
2. Click the **Customize Hardware** button at the bottom.

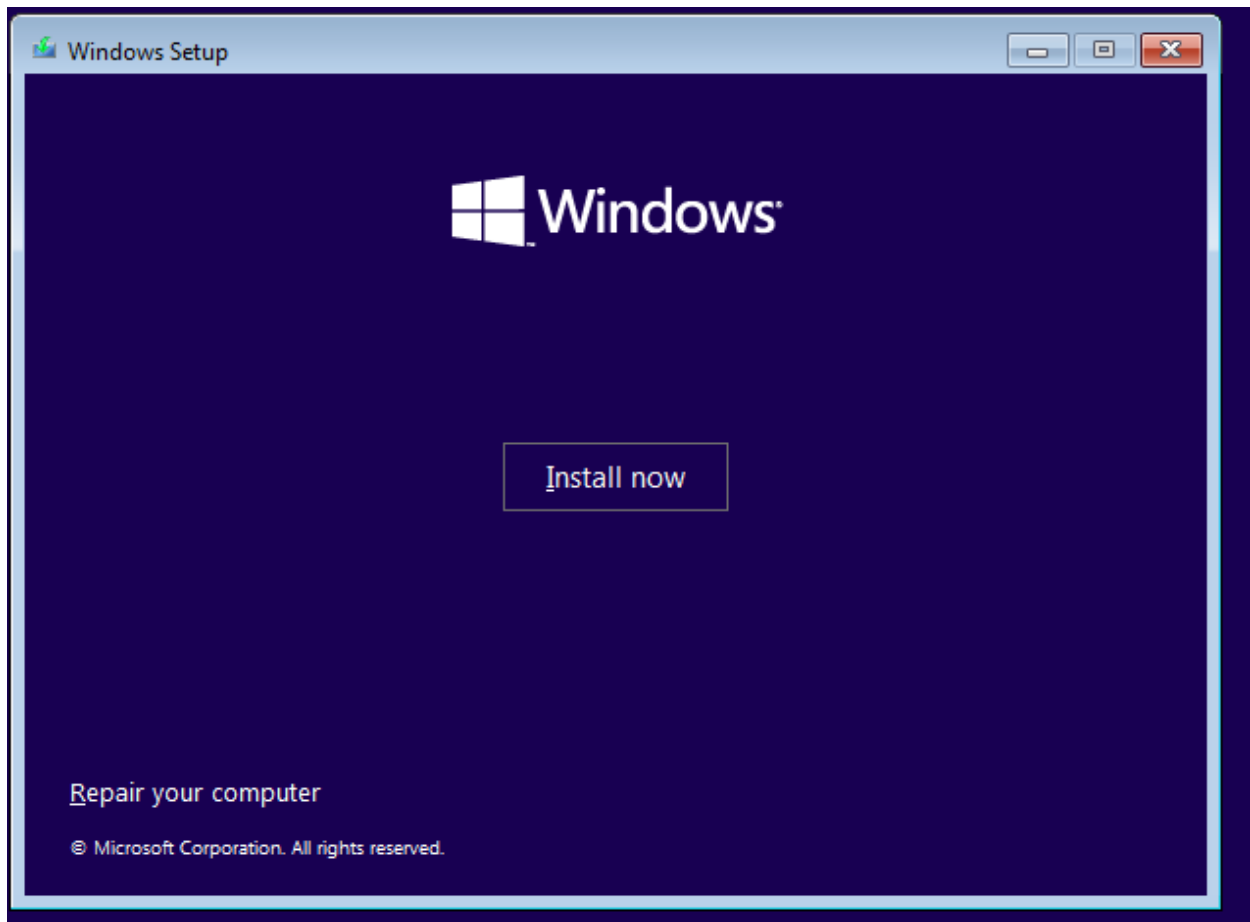

FATIMA JINNAH WOMENS UNIVERSITY

FATIMA JINNAH WOMENS UNIVERSITY

FATIMA JINNAH WOMENS UNIVERSITY

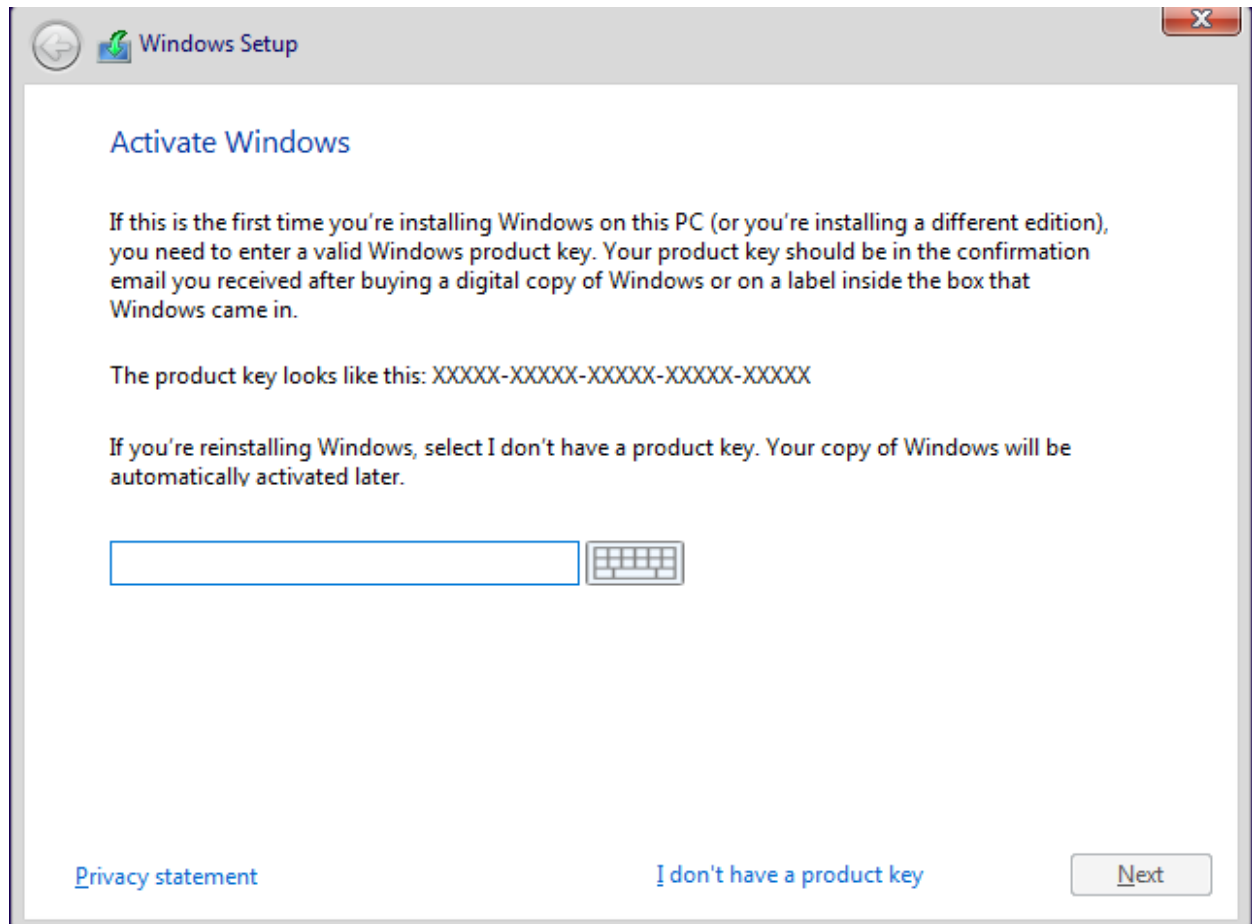

Step 2: Modify Hardware Settings

1. Memory (RAM):

- By default, VMware assigns a small amount of RAM to the VM.
- Increase the memory allocation based on your system and Windows 10 requirements.
 - Recommended: **4 GB (4096 MB)** or more.
- Use the slider or input a value manually.

FATIMA JINNAH WOMENS UNIVERSITY

A screenshot of the Windows Setup window. The title bar says "Windows Setup" with a back arrow icon on the left and a close button on the right. The main content area has the heading "Activate Windows" in blue. Below it, a paragraph explains that a valid Windows product key is needed for first-time installation. It provides an example of a product key format: "XXXXX-XXXXX-XXXXX-XXXXX-XXXXX". Another paragraph states that if reinstalling, the user can select "I don't have a product key" for automatic activation. At the bottom, there is a text input field for the product key, a keyboard icon, a link for the "Privacy statement", a link for "I don't have a product key", and a "Next" button.

Windows Setup

Activate Windows

If this is the first time you're installing Windows on this PC (or you're installing a different edition), you need to enter a valid Windows product key. Your product key should be in the confirmation email you received after buying a digital copy of Windows or on a label inside the box that Windows came in.

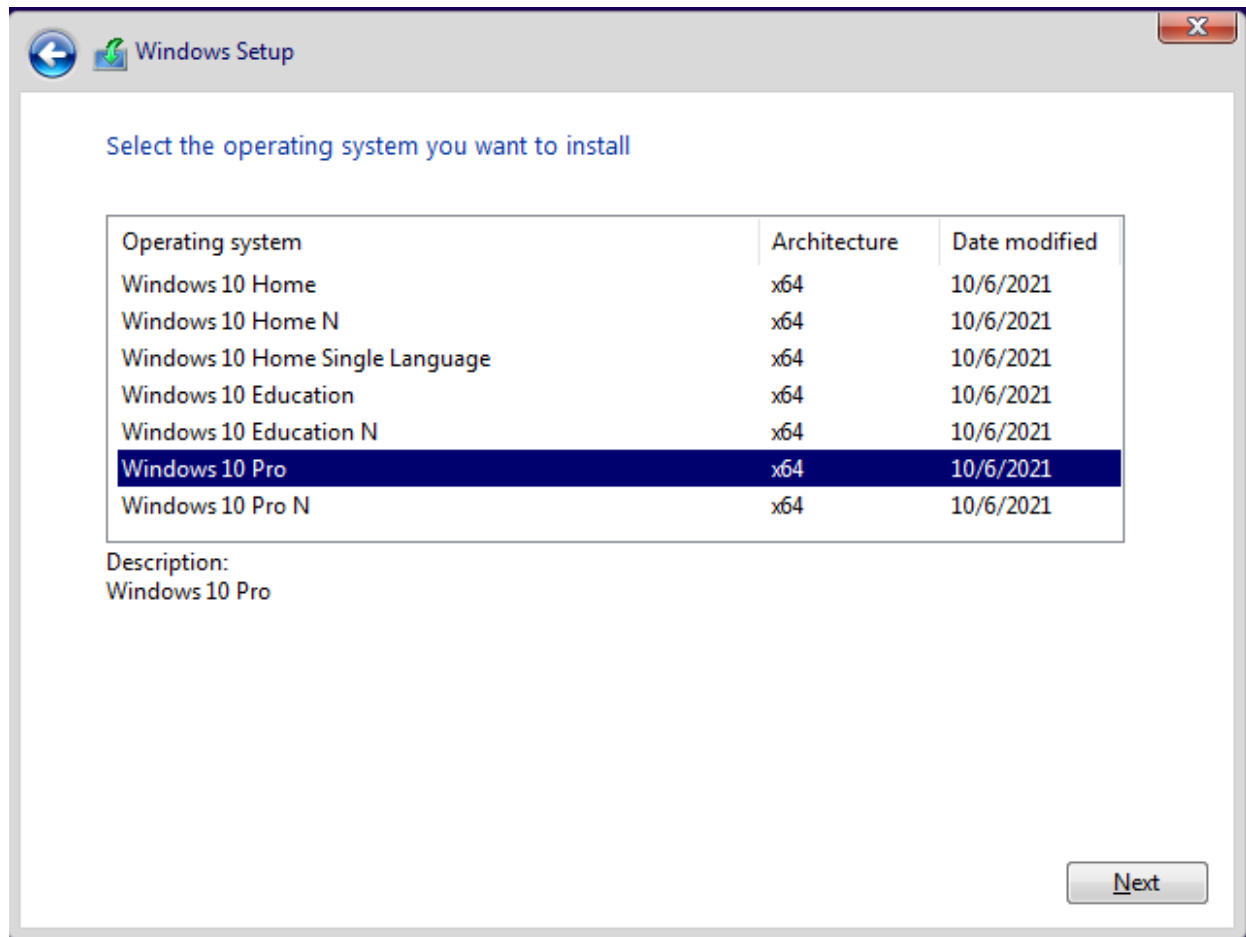

The product key looks like this: XXXXX-XXXXX-XXXXX-XXXXX-XXXXX

If you're reinstalling Windows, select I don't have a product key. Your copy of Windows will be automatically activated later.

[Privacy statement](#) [I don't have a product key](#) [Next](#)

➤ STEPS TO INSTALL VMWARE TOOLS

1. Start Installation:

- After logging into your virtual machine, go to the VMware menu bar and select VM > Install VMware Tools.
- This will mount the VMware Tools installer ISO to the virtual CD drive of the virtual machine.

FATIMA JINNAH WOMENS UNIVERSITY

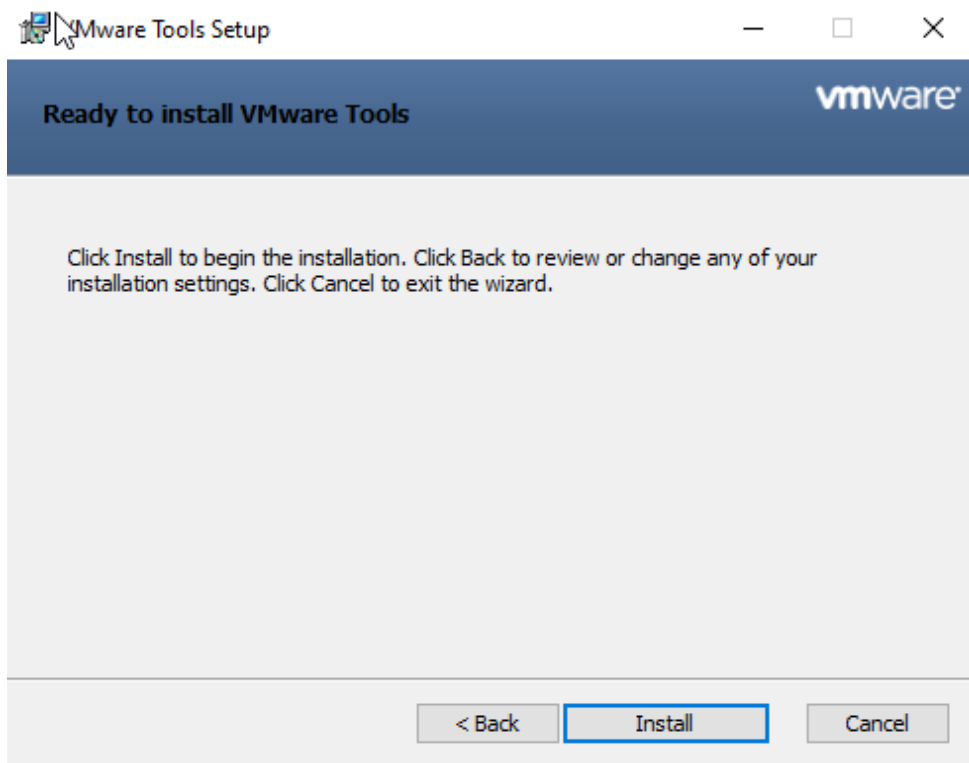

2. Open Installer:

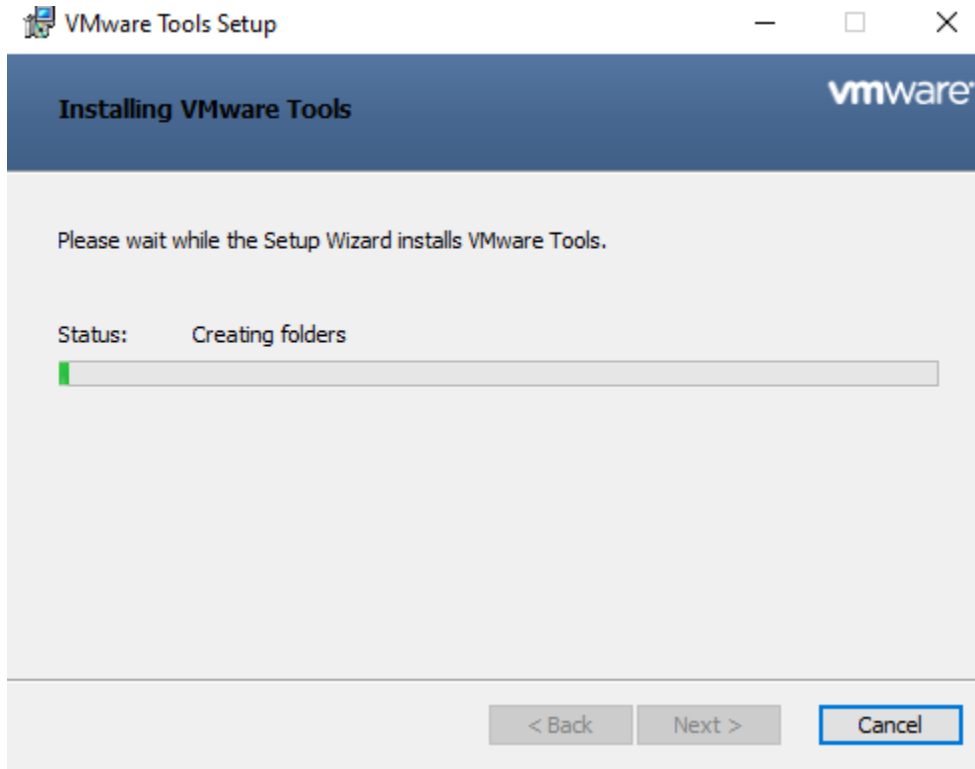

- Navigate to the virtual CD drive in your file explorer (e.g., D:\).

FATIMA JINNAH WOMENS UNIVERSITY

- Double-click the VMware Tools installer (setup.exe) to begin.

FATIMA JINNAH WOMENS UNIVERSITY

3. **Welcome Screen:**

- The installation wizard opens. Click **Next** to proceed.

4. **Choose Setup Type:**

- Select the desired setup type (e.g., **Typical** for default installation or **Custom** to specify features).
- Click **Next** to continue.

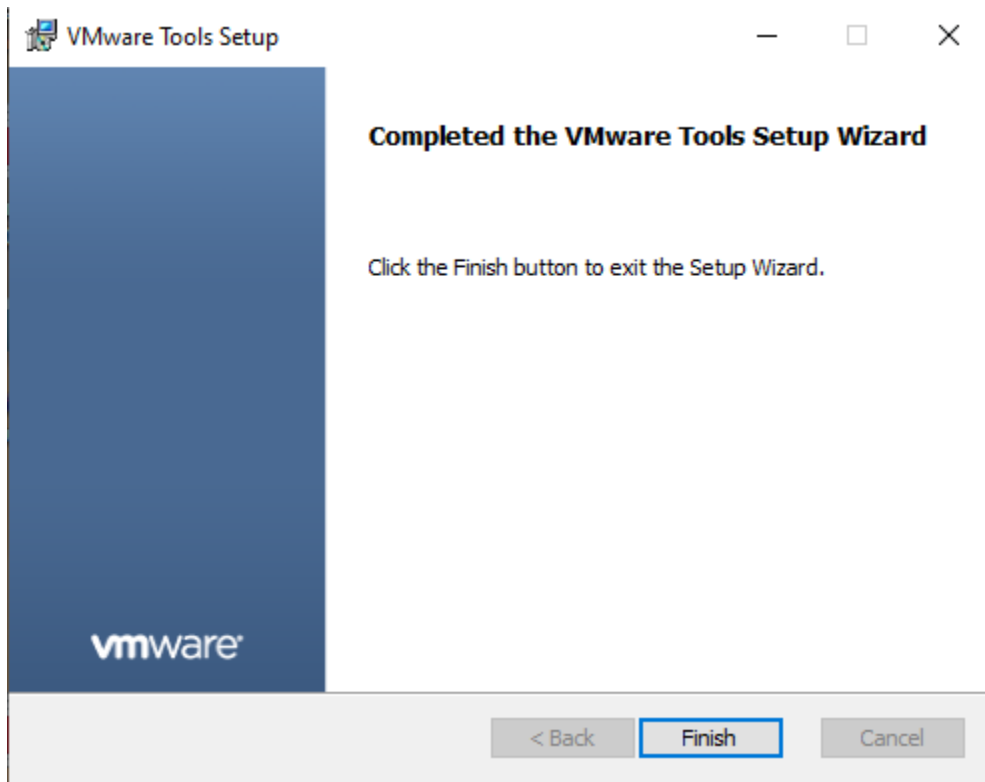

5. **Start Installation:**

- Review the settings and click **Install** to begin installing VMware Tools.

6. **Complete Installation:**

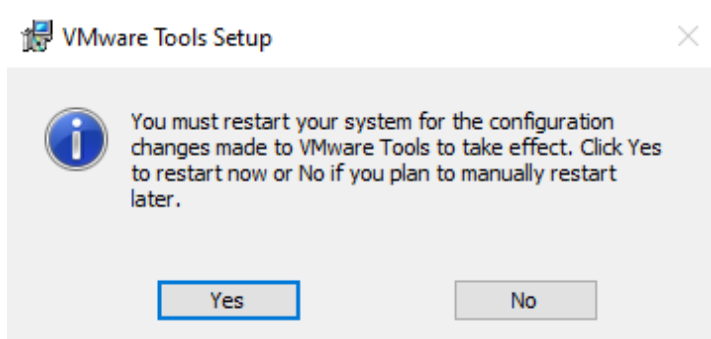

- Once the installation completes, click **Finish**.
- Restart the virtual machine to apply changes.

FATIMA JINNAH WOMENS UNIVERSITY

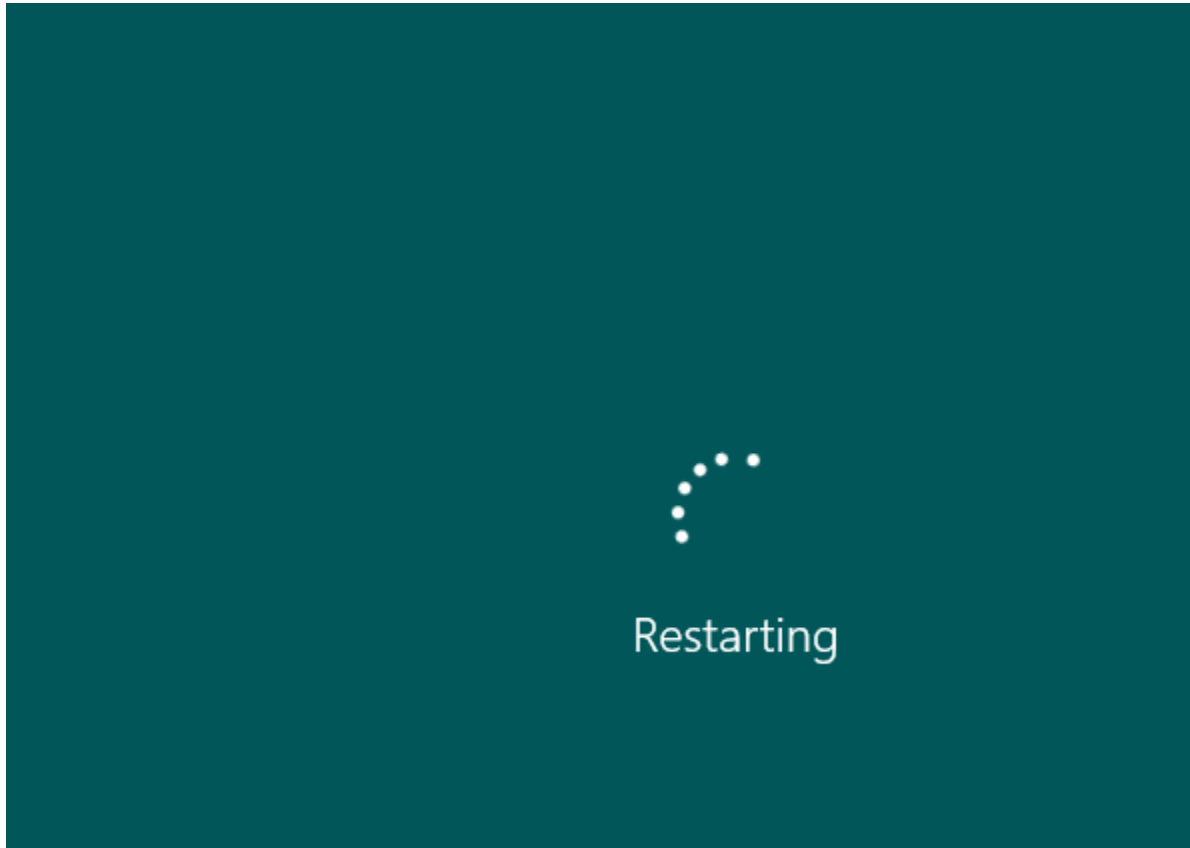

7. Verify Installation:

- After rebooting, ensure VMware Tools is functioning correctly by checking the system tray for the VMware Tools icon or testing features like drag-and-drop or screen resizing.

FATIMA JINNAH WOMENS UNIVERSITY

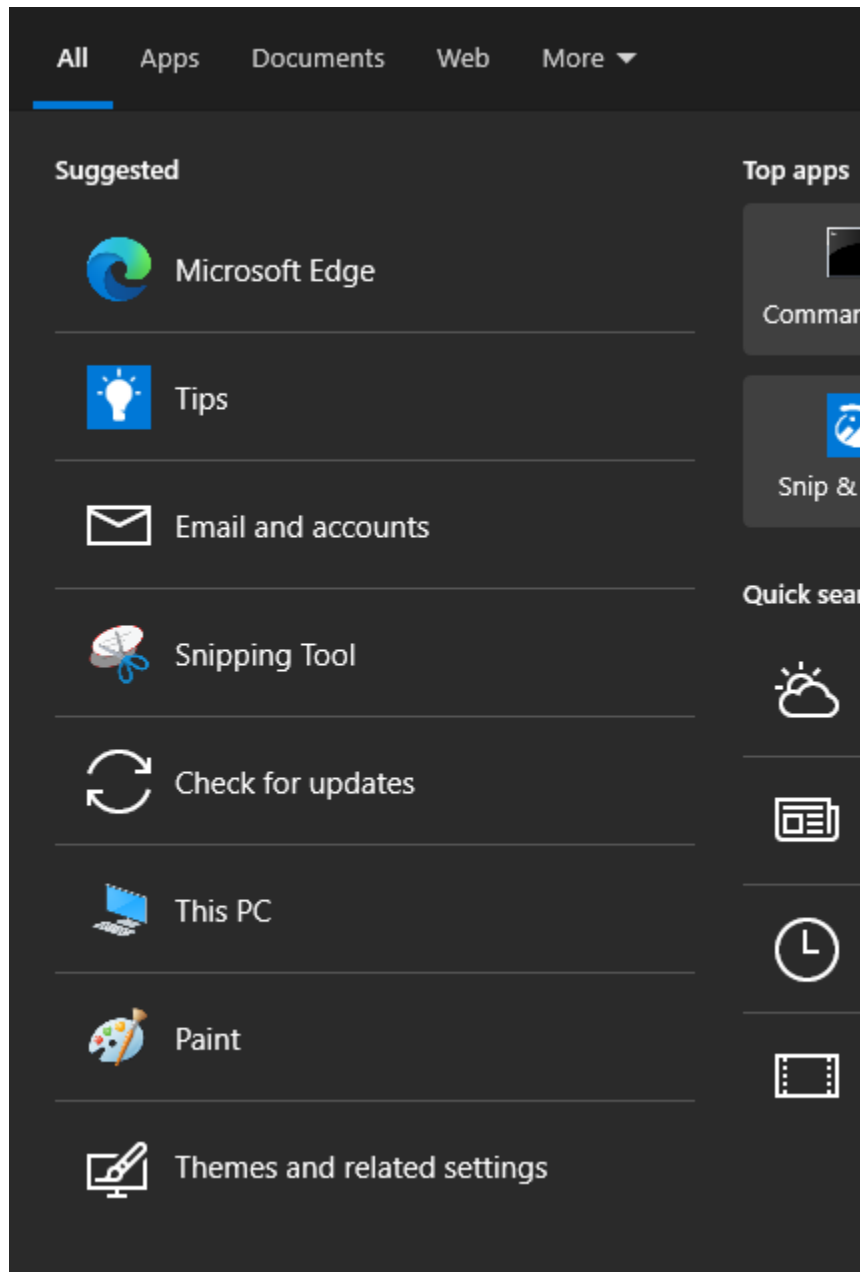

➤ CREATE BACKUP ADMINISTRATIVE ACCOUNT

Using Command Prompt (Admin Privileges)

1. Open Command Prompt with Admin Privileges

- Press `Windows + S` to open the search bar, type `cmd`, and right-click on **Command Prompt**.
- Select **Run as Administrator**.

FATIMA JINNAH WOMENS UNIVERSITY

2. Create a New User Account

- o In the Command Prompt, type the following command and press Enter:

```
sql
Copy code
net user BackupAdmin Password123 /add
```

Replace BackupAdmin with your preferred account name and Password123 with a secure password.

5. Save and Exit

- Close the Control Panel, and the new administrative account will be ready for use.

➤ CREATE WINDOW RECOVER USB DRIVE

Creating a recovery USB drive helps you repair or reinstall Windows in case of system issues.

Requirements:

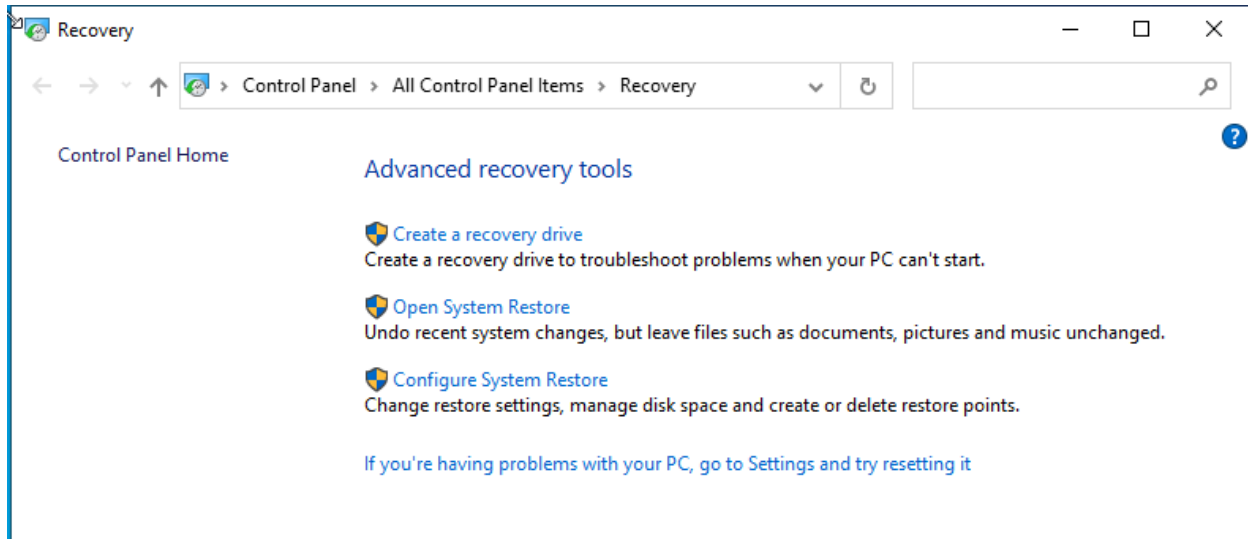

1. A USB drive with at least **16GB** capacity.
 2. A working Windows 10 or 11 PC.
-

Steps to Create a Windows Recovery USB Drive:

FATIMA JINNAH WOMENS UNIVERSITY

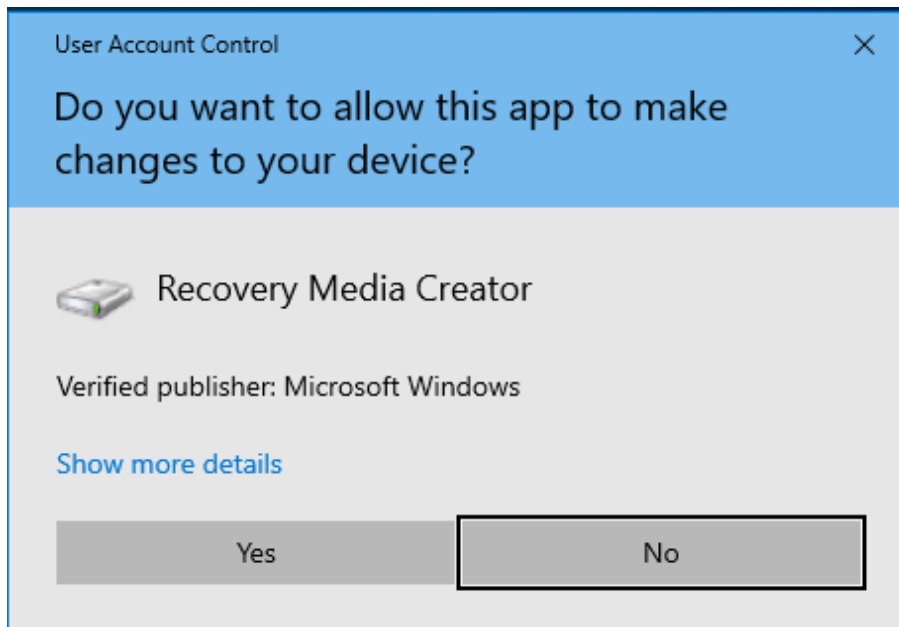

1. Connect the USB Drive

- Plug in a USB drive with at least 16GB of free storage.
- Ensure that all important data on the USB drive is backed up, as the process will erase all contents.

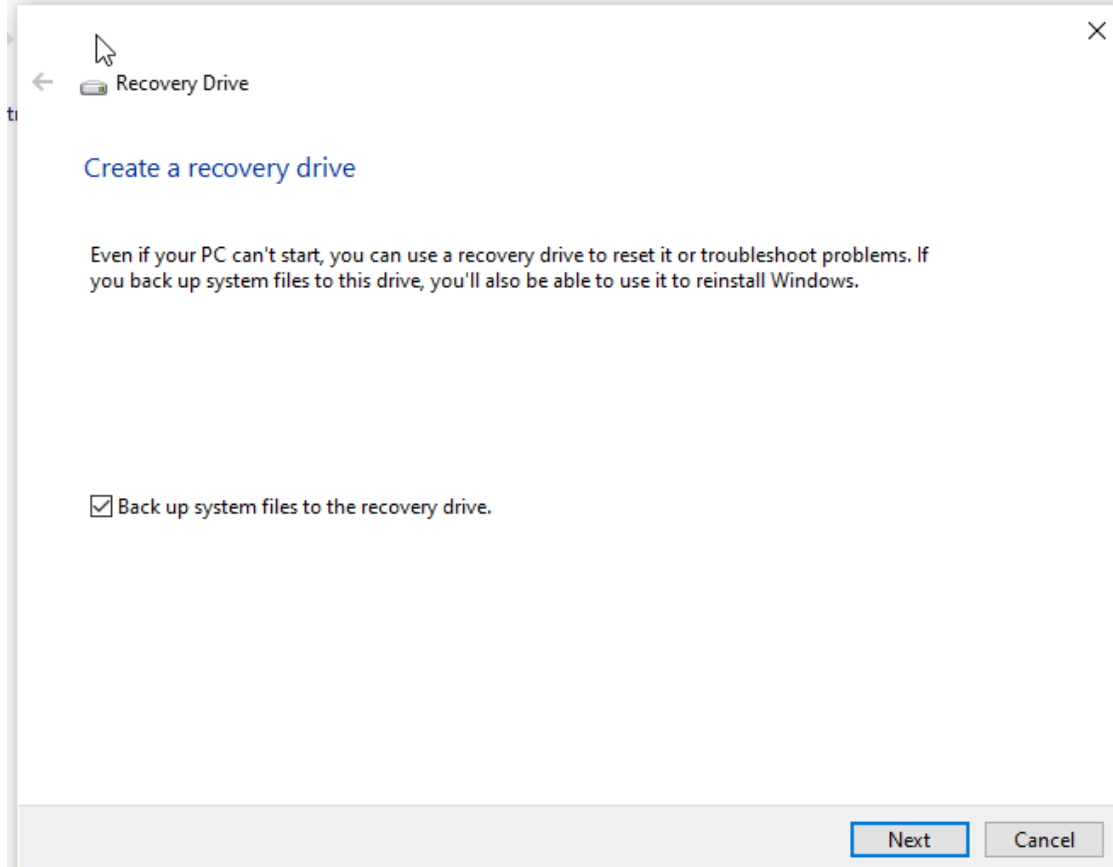

2. Open Recovery Drive Tool

- Press **Windows + S** and type **Recovery Drive** in the search bar.
- Select **Create a Recovery Drive** from the search results.

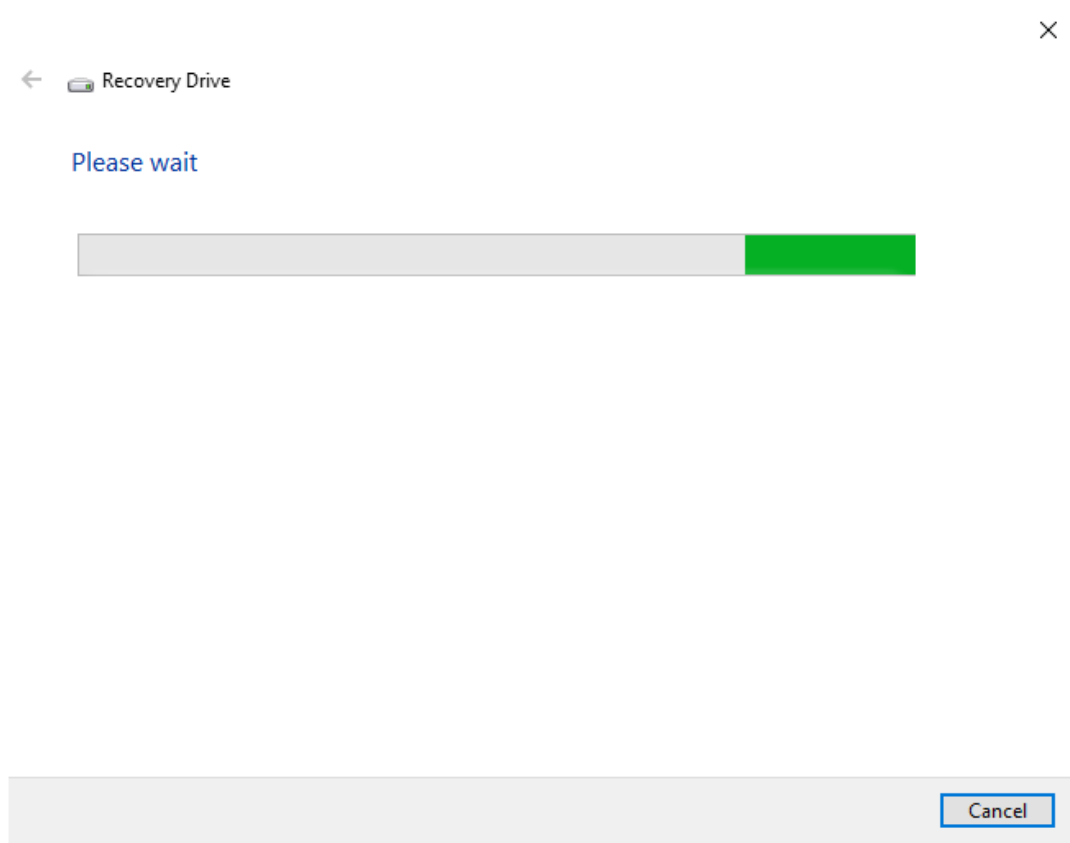

FATIMA JINNAH WOMENS UNIVERSITY

3. Start the Recovery Drive Wizard

- When the wizard opens, check the box for **Back up system files to the recovery drive** and click **Next**.

FATIMA JINNAH WOMENS UNIVERSITY

4. Select the USB Drive

- The tool will scan for available USB drives. Select the correct USB drive and click **Next**.

5. Confirm and Create the Recovery Drive

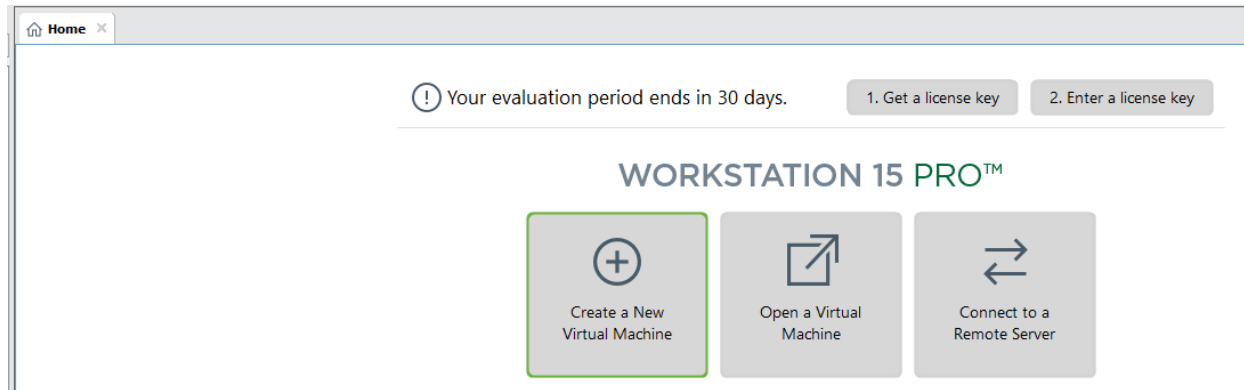

- A warning will appear that all files on the USB drive will be deleted.
- Click **Create** to begin copying the necessary system files to the USB drive. This process may take some time.

6. Finish the Process

- Once completed, you will see a message indicating that the recovery drive is ready.
- Click **Finish** to exit the wizard.

< Back Next > Cancel

FATIMA JINNAH WOMENS UNIVERSITY

New Virtual Machine Wizard

Specify Disk Capacity

How large do you want this disk to be?

The virtual machine's hard disk is stored as one or more files on the host computer's physical disk. These file(s) start small and become larger as you add applications, files, and data to your virtual machine.

Maximum disk size (GB):

Recommended size for Windows Server 2012: 60 GB

☒ Store virtual disk as a single file

☐ Split virtual disk into multiple files

Splitting the disk makes it easier to move the virtual machine to another computer but may reduce performance with very large disks.

The screenshot shows the 'Add Roles and Features Wizard' window. The title bar is blue with the text 'Add Roles and Features Wizard' and standard window controls. The main content area is white. On the left, there is a vertical navigation pane with the following items: 'Before You Begin', 'Installation Type' (highlighted in blue), 'Server Selection', 'Server Roles', 'Features', 'Confirmation', and 'Results'. The main area is titled 'Select installation type' in blue. Below the title, there is a description: 'Select the installation type. You can install roles and features on a running physical computer or virtual machine, or on an offline virtual hard disk (VHD)'. There are two radio button options: 'Role-based or feature-based installation' (selected) and 'Remote Desktop Services installation'. The 'Role-based or feature-based installation' option has a sub-description: 'Configure a single server by adding roles, role services, and features.' The 'Remote Desktop Services installation' option has a sub-description: 'Install required role services for Virtual Desktop Infrastructure (VDI) to create a virtual machine-based or session-based desktop deployment.' At the bottom right, there is a 'DESTINATION SERVER' section with the text 'Browse...IT'. At the bottom of the window, there are four buttons: '< Previous', 'Next >', 'Install', and 'Cancel'.

Roles	Description
☐ Active Directory Certificate Services	
☒ Active Directory Domain Services	Active Directory Domain Services (AD DS) stores information about objects on the network and makes this information available to users and network administrators. AD DS uses domain controllers to give network users access to permitted resources anywhere on the network through a single logon process.
☐ Active Directory Federation Services	
☐ Active Directory Lightweight Directory Services	
☐ Active Directory Rights Management Services	
☐ Application Server	
☐ DHCP Server	
☐ DNS Server	
☐ Fax Server	
☒ File and Storage Services (1 of 12 installed)	
☐ Hyper-V	
☐ Network Policy and Access Services	
☐ Print and Document Services	
☐ Remote Access	
☐ Remote Desktop Services
